

# REMOTE CONTROL LAWN MOWER

Large volume/high efficiency

The size is higher than that seen in the market, and the efficiency is improved while the effect is remarkable. The horsepower is stronger, the speed is faster and the remote control is farther!

**Geodesical**®

**STRUCTURE TYPE:**4-STROKE HORIZONTAL BAR

---

**START METHOD:**HAND RECOIL/ELECTRIC START

---

**REMOTE CONTROL RANGE:** ≤800M

---

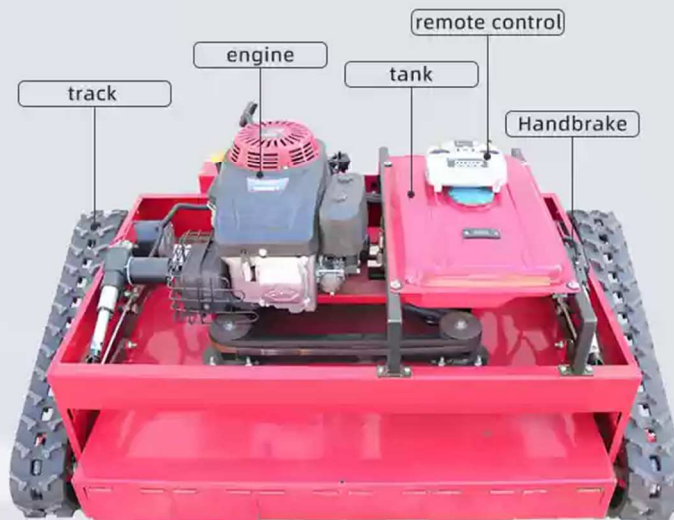

**FUEL TANK CAPACITY:**6.5L

---

**POWER CONSUMPTION:**2.5L/H

---

## PRODUCT PARAMETER

## PRODUCT SIZE

# BRAND NEW ZCG-02 SIZE

Larger volume, stronger effect

improve

## BIG SIZE BETTER TO USE

BIGGER SIZE

MORE HORSEPOWER

HIGHER EFFICIENCY

BETTER RESULTS

**MOWING EFFICIENCY 3-5 ACRES/H**

INDUSTRIAL

# ARTIFICIAL LAND RECLAMATION INEFFICIENT MOWING? BETTER USE LET'S HAVE A LAWN MOWER!

The lawn mower is equipped with manganese steel cutter heads and is driven by hybrid power. The remote control range is  $\leq 800\text{m}$ . It can be operated remotely without following at any time. It reduces the labor intensity, noise and vibration damage of the staff, and reduces labor costs. It is suitable for forestry, grassland, roads, dams, etc. Applicable to multiple scenarios such as agriculture and forestry, orchards, vegetables, greenhouses, farms, and ecological gardens!

**HIGH MOWING EFFICIENCY  
SAVE EFFORT AND MONEY**

**TRADITIONAL LABOR  
COSTLY AND TIME-CONSUMING**

**SAVE ONE YEAR  
100,000 YUAN**

**LABOR COSTS  
HIGH**
